

Exam Procedure

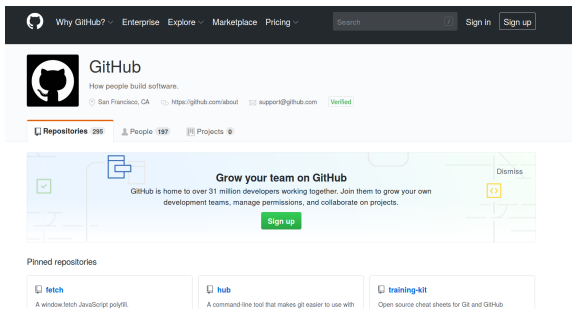

Duccio Rocchini

Professore Ordinario | Full Professor
Alma Mater Studiorum Università di Bologna
<https://www.unibo.it/sitoweb/duccio.rocchini>

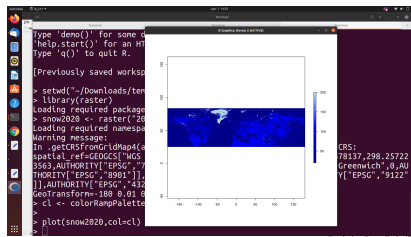

Phase 1

- Take care of your GitHub account: I will check the code and comments!

Phase 2

- Small project based on a spatio-ecological monitoring framework
- Example set:
<https://land.copernicus.vgt.vito.be/PDF/portal/Application.html>
- Put the code of the project at the end of the GitHub script `R_code_exam.r`
- Double course: make a different project

Phase 3

- Small presentation: 10 minutes
- The presentation should show the methods chosen, the code used and the achieved results
- The presentation can be done with any software like LaTeX, Impress, Powerpoint
- After the presentation I will ask your GitHub account for a final look at your code
- I will only look at the whole code and the `R_code_exam.r` file!
